INTRODUCTIONS OF  
MARCELLA KELLER IRIS GARDENS  
3205 Lafayette Street, St. Joseph, Missouri

---

Please Note: All orders filled subject to stock on hand. We guarantee all plants shipped to be true to name, vigorous, and healthy when received. We do not guarantee them to live or grow in your garden under conditions over which we have no control.

We prepay postage anywhere in the United states on orders amounting to \$2.00 and over.

Terms: Cash with order. Personal check or money order.

10% Discount on all orders up to July 10.

Irises marked (\*) are offered here for the first time in America.

**PEACHES** (H. P. Sass—Keller 1932)—Large flowers of peach to apricot and orange tones. S, are beautiful coloring of a "luscious Alberta Peach" (words used by an artist); F, orange overlaid red. A lovelier Clara Noyes. Mr. R. M. Cooley of Silverton, Ore., who saw "Peaches" blooming in the gardens of Mr. H. P. Sass, declared it to be the most charming mass of soft bright color he had seen. 36-in. .... \$10.00

**JEANNETTE MAY KENNEDY** (Keller 1931)—S, large and finely arched of ruffled pink; F, flaring deep velvety red to blackish purple, bordered pink. The whole flower is strongly illuminated from within by a rich golden glow. The most charming Iris we have seen. Flowers of largest size and heaviest substance, of perfect form, are borne very freely on stiff stems. Mr. H. P. Sass, who saw a bloom of this after it was carried 200 miles in a car, wrote: "It is a blend of size and substance. If stem is good would rate it 90 at least." In its rare coloring it is unlike any other Iris and in size, form, substance and branching could not be improved; 38-in. .... \$35.00

**W. C. KENNEDY** (Keller 1931)—A large variegata about the color of Iris King but shaped like Ambassadeur only larger. A magnificent Iris and one you can never forget; 36-in. .... \$35.00

**HONEY BOY** (Keller 1931)—This fine dwarf is an entirely new break in color combination. A charming honey yellow enlivened by the pink stigmas which have a turquoise blue midrib, giving the orchid effect seen only in a pink and blue delphinium. A lovely combination in a yellow Iris. The flowers are very large, of perfect form and are borne well above foliage. 8-in. Fargrant. Fine for rock garden .... \$7.50

### BEAUTIFUL IRIS

Airy Dream—Huge light pink pallida; white beard.....	\$ 5.00
